1. Extension Installation

- Extract the zip folder and upload our extension to root of your Magento 2 directory via FTP.
- Login to your SSH and run below commands step by step:
 - php bin/magento setup:upgrade
 - For Magento version 2.0.x to 2.1.x - php bin/magento setup:static-content:deploy
 - For Magento version 2.2.x & above - php bin/magento setup:static-content:deploy -f
 - php bin/magento cache:flush
- That's it.

2. Configuration

For configuring the extension, login to Magento 2, move to **Stores → Configuration → Call for Price** where you can find various settings to enable the extension.

- **Call for Price:** Enable or disable Call for Price extension from here.
- **Call for Price Scope:** Select the scope for which you want to enable the extension.
- **Select Categories:** Select the categories in the case of category specific scope is selected.
- **Call for Price Button Text:** Enter the call for price button text.
- **Enable Call for Price for Selected Group:** Select YES to enable call for price for specific customer groups.
- **Select Customer Groups:** Select the customer groups to enable call for price for.
- **Call for Price Form Title:** Add custom title for the call for price form.
