

# Cookie Notice for Magento 2

## User Guide

### Table of Content

1. [Extension Installation Guide](#)
2. [Configuration](#)
3. [Content Settings](#)
4. [Container Display Settings](#)
5. [Cookie Notice in Frontend](#)

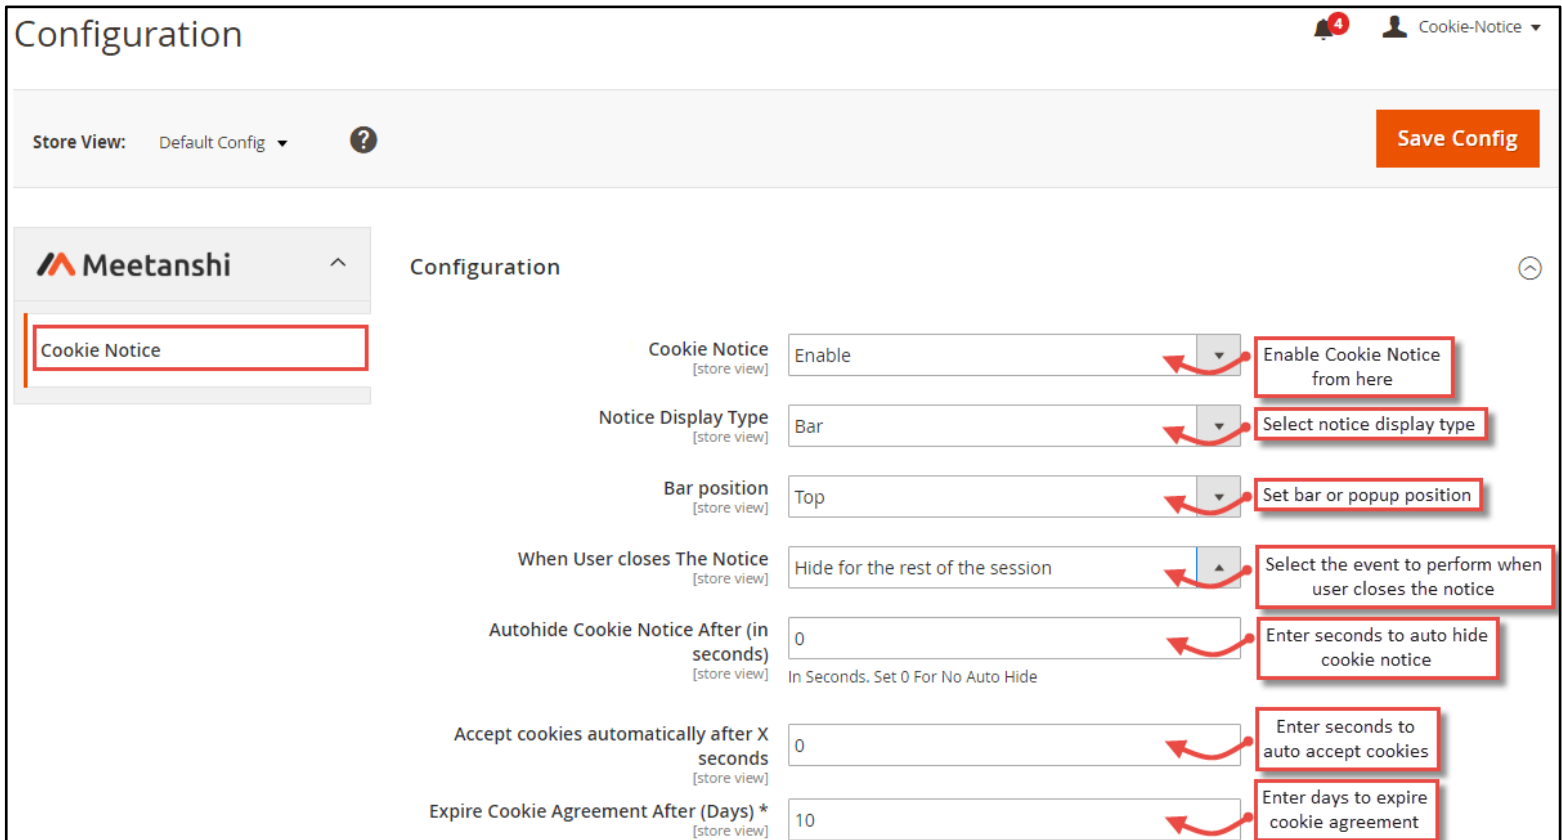

## 1. Extension Installation

- Extract the zip folder and upload our extension to root of your Magento 2 directory via FTP.
- Login to your SSH and run below commands step by step:
  - php bin/magento setup:upgrade
  - For Magento version 2.0.x to 2.1.x - php bin/magento setup:static-content:deploy
  - For Magento version 2.2.x & above - php bin/magento setup:static-content:deploy -f
  - php bin/magento cache:flush
- That's it.

## 2. Configuration

To configure the extension, login to Magento 2 backend, move to **Stores → Configuration → Cookie Notice** where you can find various settings to configure the extension.

- **Cookie Notice:** Enable the extension from here.
- **Notice Display Type:** Choose one of the notice display types either from bar or popup.
- **Bar Position:** Set bar or pop up position.
- **When User Closes the Notice:** Select the event to perform when user closes the notice.
- **Accept cookies automatically after X seconds:** Enter the number of seconds after which the cookies are accepted automatically.
- **Autohide Cookie Notice After:** Enter the number of seconds after which the cookie notice is automatically hidden.
- **Expire Cookie Agreement after:** Enter the number of days after which the cookie agreement expires.

The screenshot shows the 'Configuration' page for the 'Cookie Notice' extension. The 'Store View' is set to 'Default Config'. A 'Save Config' button is visible in the top right. The 'Cookie Notice' section is expanded, showing the following settings:

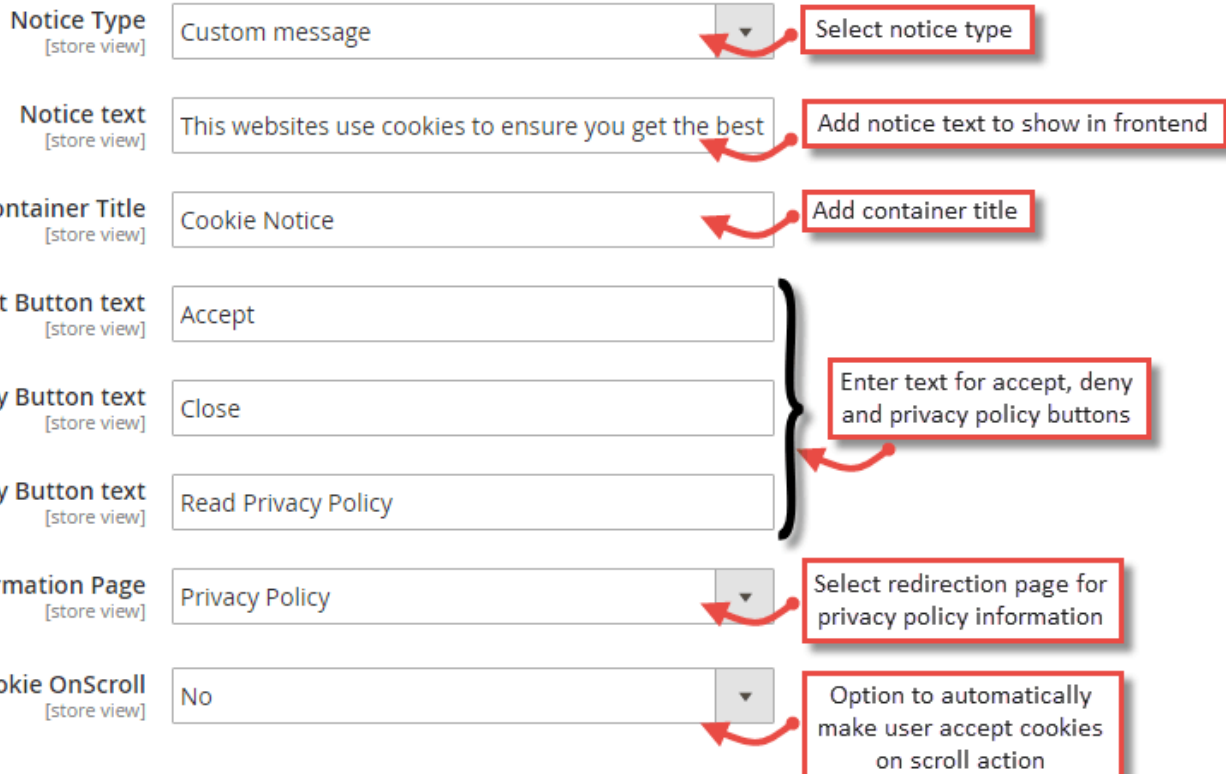

- Cookie Notice:** Set to 'Enable'. A red box highlights the dropdown, with an arrow pointing to the text 'Enable Cookie Notice from here'.
- Notice Display Type:** Set to 'Bar'. A red box highlights the dropdown, with an arrow pointing to the text 'Select notice display type'.
- Bar position:** Set to 'Top'. A red box highlights the dropdown, with an arrow pointing to the text 'Set bar or popup position'.
- When User closes The Notice:** Set to 'Hide for the rest of the session'. A red box highlights the dropdown, with an arrow pointing to the text 'Select the event to perform when user closes the notice'.
- Autohide Cookie Notice After (in seconds):** Set to '0'. A red box highlights the input field, with an arrow pointing to the text 'Enter seconds to auto hide cookie notice'.
- Accept cookies automatically after X seconds:** Set to '0'. A red box highlights the input field, with an arrow pointing to the text 'Enter seconds to auto accept cookies'.
- Expire Cookie Agreement After (Days) \*:** Set to '10'. A red box highlights the input field, with an arrow pointing to the text 'Enter days to expire cookie agreement'.

### 3. Content Settings

Configure the following settings to modify the content of the cookie notice.

- **Notice Type:** Select the notice message type from the dropdown menu.
- **Notice Text:** Configure the custom notice message to be displayed for Cookie Notice.
- **Container Title:** Add the container title.
- **Accept Button Text:** Set the text for Accept Cookies button.
- **Deny Button Text:** Set the text for Deny Cookies button.
- **Privacy Policy Button Text:** Set the text to be displayed for privacy policy button.
- **Privacy Policy Redirect Information Page:** Select the redirect page for privacy policy button.
- **Accept Cookie On Scroll:** Enable the option to automatically make user accept the cookies on scroll action.

#### Content Settings

The screenshot shows the 'Content Settings' form for the Cookie Notice. The form includes the following fields and annotations:

- Notice Type:** A dropdown menu with 'Custom message' selected. Annotation: 'Select notice type'.
- Notice text:** A text input field containing 'This websites use cookies to ensure you get the best'. Annotation: 'Add notice text to show in frontend'.
- Container Title:** A text input field containing 'Cookie Notice'. Annotation: 'Add container title'.
- Accept Button text:** A text input field containing 'Accept'.
- Deny Button text:** A text input field containing 'Close'.
- Privacy Policy Button text:** A text input field containing 'Read Privacy Policy'.
- Privacy Policy Redirect Information Page:** A dropdown menu with 'Privacy Policy' selected. Annotation: 'Select redirection page for privacy policy information'.
- Accept Cookie OnScroll:** A dropdown menu with 'No' selected. Annotation: 'Option to automatically make user accept cookies on scroll action'.

A bracket on the right side of the 'Accept Button text', 'Deny Button text', and 'Privacy Policy Button text' fields is annotated with 'Enter text for accept, deny and privacy policy buttons'.

#### 4. Container Display Settings

Configure the container display settings to enhance the display of the cookie notice bar or popup in frontend. Settings here contain font type, text align, size and color of the container background, font and buttons etc.

- **Font Family:** Select the font family.
- **Container Text Align:** Set alignment for container text.
- **Container Title Text Size:** Set the size of container title text.
- **Container Message Text Size:** Set the size of container message text.
- **Container Border:** Enable the container border.
- **Container Message Font Color:** Select the color for container font.
- **Accept Button Background Color:** Select the color for accept button background.
- **Close Button Background Color:** Select the color for close button background.
- **Privacy Policy Button Background Color:** Select the color for the privacy policy button background.
- **Close Button Text Color:** Select the color for the close button text.
- **Privacy Policy Text Color:** Select the color for the privacy policy text.
- **Accept Button Text Color:** Select the color for the accept button text.
- **Container Title Color:** Select the color for container title.

Select colors for various backgrounds, buttons and texts

## 5. Cookie Notice in Frontend

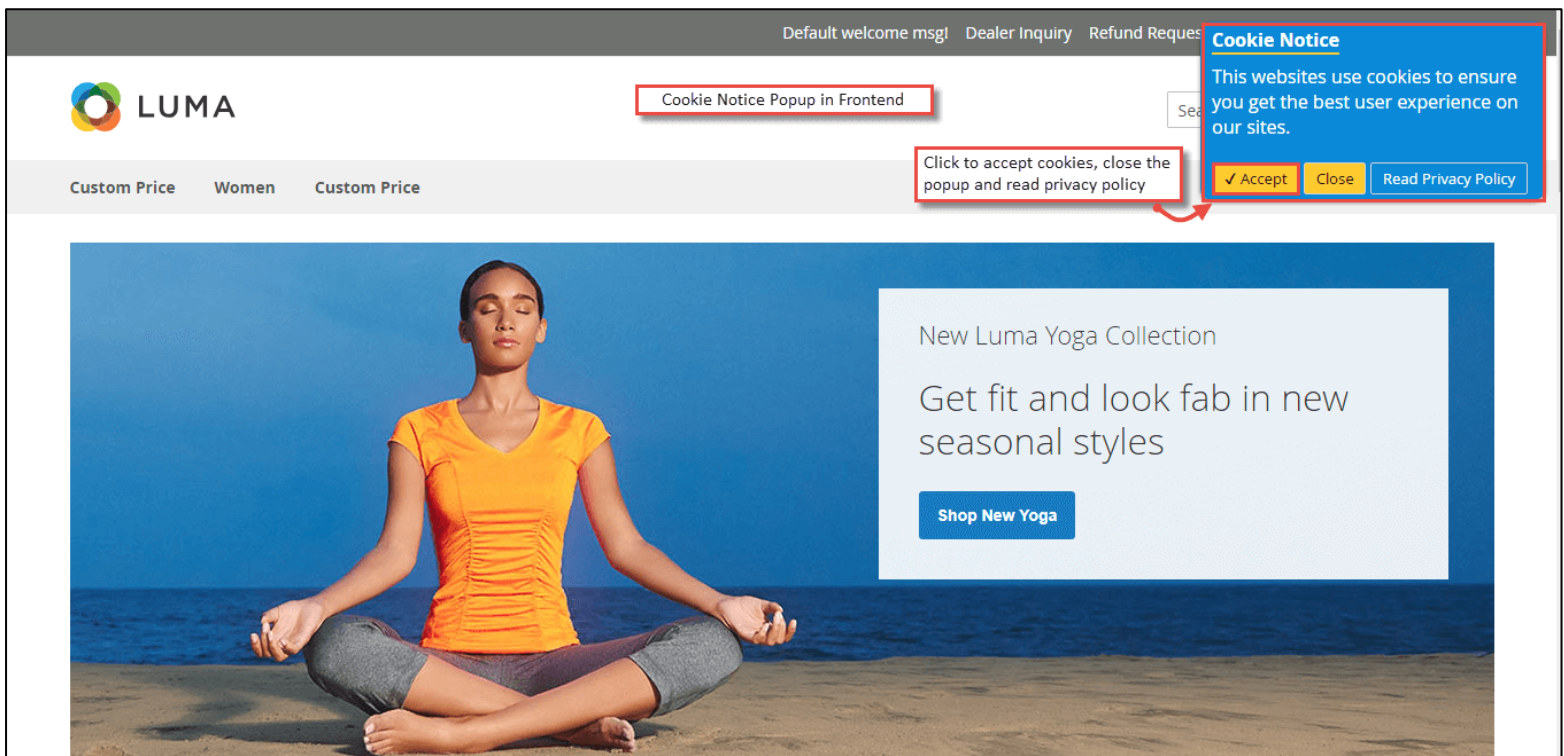

Once the settings are configured, the cookie notice is displayed as set either in bar or in popup in the frontend.

- **Cookie Notice Bar in frontend**

The screenshot displays a Magento 2 frontend with a blue cookie notice bar at the top. The bar contains the text "Cookie Notice" and "This websites use cookies to ensure you get the best user experience on our sites." A red box highlights the text "Cookie Notice Bar in Frontend" above the bar. Another red box highlights the text "Click to accept cookies, close the bar and read privacy policy" with a red arrow pointing to the "Accept" button. The "Accept" button is yellow with a checkmark, and the "Close" button is yellow. A "Read Privacy Policy" link is also present. Below the bar, the website header includes navigation links: "Default welcome msg!", "Dealer Inquiry", "Refund Request Form", "Sign In or", and "Create an Account". The LUMA logo is on the left, and a search bar with the text "Search entire store here..." and a shopping cart icon is on the right. Below the header, there are category links: "Custom Price", "Women", and "Custom Price". The main content area features a large image of a woman in a yellow top meditating on a beach. A white text box on the right of the image contains the text "New Luma Yoga Collection", "Get fit and look fab in new seasonal styles", and a blue "Shop New Yoga" button.

- **Cookie Notice Pop Up in frontend**
